TRENDnet's Industrial 2.5G PoE++ Injector, model TI-IG219, allows users to add PoE++ power to a non-PoE 2.5G switch. Connect the 2.5G PoE++ injector to a non-PoE switch, and then run an Ethernet cable up to 100 meters (328 ft.) to network a PoE, PoE+, or PoE++ device. This multi-gig industrial PoE++ injector supplies up to 95W of power to a PoE device. The fanless design conveniently eliminates operating noise and lowers energy consumption. The 2.5G PoE++ injector is equipped with an IP50-rated metal enclosure, designed to withstand a high degree of vibration and shock, while operating within an extreme temperature range of -40° – 75° C (-40° – 167° F) for harsh industrial environments.
