Item no.: 21.99.1195
VALUE 8-Port Gigabit PoE Switch, 2x Uplink Port, black

Features:
- Provides 8x 10/100/1000Base-T PoE ports and 2x 10/100/1000Base-T uplink port
- Supports IEEE802.3 af/at POE standards, max. 30W output each port
- Supports 10/100/1000 Base-Tx auto sensed
- Supports Auto-MDI/MDI-X
- Supports 802.3x flow control for full-duplex and backpressure for half-duplex
- 20G switching capacity, ensuring line speed transmission
- Support one key VLAN mode, ensuring the network security
- Reliable design of built-in power mode, up to 120W power output totally
- Anti-lightning and surge protection
- Plug and play
- Metal case in black
